

REACH, RoHS, and POP Declaration

Status: 01/2026, valid until revoked

Ramsauer GmbH & Co KG hereby confirms that all Ramsauer products comply with the basic requirements of the following legal provisions:

1. REACH:

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of December 18, 2006, concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), as amended.

Abbreviation: REACH Regulation.

With regard to Regulation (EC) No. 1907/2006 (REACH Article 3), it should be noted that Ramsauer GmbH & Co KG safety data sheets are prepared in cooperation with a certified specialist office and are regularly reviewed and updated. All relevant legal requirements, in particular those relating to SVHC substances and their limit values, are taken into account and implemented where necessary.

2. RoHS:

EU Directive 2011/65/EU (RoHS) on the restriction of hazardous substances such as lead, mercury, or cadmium. As RoHS only applies to electrical and electronic equipment, this directive does not apply to us.

Abbreviation: RoHS Directive.

3. POP:

EU Regulation 2019/1021 on persistent organic pollutants (POP).

The products supplied do not contain any prohibited substances (e.g., PFOA, PFHxS, HBCDD, PCB) above the applicable limits.

It is confirmed that none of the substances listed in Annex I of the regulation are intentionally used and that the applicable limit values for unintentional trace concentrations (UVC) are complied with.

Note: polyurethane sealants, polyurethane adhesives, and polyurethane foams may contain diisocyanates (MDI > 0.1%), which can have a sensitizing effect. For commercial and industrial users, mandatory training on safe use has been required under REACH since August 24, 2023.

The latest safety data sheets and the current REACH, RoHS, and POP declarations are available at any time on the Ramsauer GmbH & Co KG website.
